APPLIED CATALYSIS A: GENERAL

Contents Volume 128

APPLIED CATALYSIS A: GENERAL

Selective methanol synthesis from CO_2/H_2 on new SiO_2-supported PtW and PtCr bimetallic catalysts [A3126]
C. Shao (Dalian, China), L. Fan, K. Fujimoto and Y. Iwasawa (Tokyo, Japan) L1

Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon–carbon double bond cleavage [A3111]
M. Alvaro, A. Corma, H. García and S. Valencia (Valencia, Spain) L7

Articles

Selective hydrogenation over ruthenium catalysts [A3063]
P. Kluson and L. Cerveny (Prague, Czech Republic) 13

Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication [A3069]
I. Paseka, L. Cerveny and P. Kluson (Prague, Czech Republic) 33

Promotion effect of carbon on the oxidation of ferrous ions by oxygen in the presence of sodium nitrite [A3071]
N.I. Kuznetsova, V.A. Likholobov (Novosibirsk, Russia), M. Gurrath
H.P. Boehm (Munich, Germany) 41

Preparation of gold in Y-type zeolite for carbon monoxide oxidation [A3093]
Y.-M. Kang and B.-Z. Wan (Taipei, Taiwan, R.O.C.) 53

The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane [A3067]
M. Bajus (Bratislava, Slovakia) and M.H. Back (Ottawa, Ontario KIN, Canada) 61

High thermal stability of SAPO-40 in n-octane cracking [A3070]
M. Derewinski and D. Barthomeuf (Paris, France) 79

Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts [A3095]
E. Duprey, J. Maquet, P.P. Man, J.-M. Manoli, M. Delamar and J.-M. Brégeault (Paris, France) 89

Preparation of sulfated zirconia catalysts with improved control of sulfur content [A3094]
D. Fărcaşiu and J.Q. Li (Pittsburgh, PA, USA) 97

Activity and deactivation behavior of various zeolite catalysts [A3092]
F. Niu and H. Hofmann (Erlangen, Germany) 107

Acid zeolites as catalysts in organic reactions. Highly selective condensation of 2-alkylfurans with carbonylic compounds [A3064]
F. Algarra, A. Corma, H. Garcia and J. Primo (Valencia, Spain) 119

Highly active catalyst of $NiO–ZrO_2$ modified with H_2SO_4 for ethylene dimerization [A3074]
J.R. Sohn, H.W. Kim, M.Y. Park, E.H. Park, J.T. Kim (Taegu, South Korea) and S.E. Park (Taejon, South Korea) 127

Screening of solid acid catalysts for the condensation of acetaldehyde with *o*-xylene [A3089]
P. Beltrame, E. Conte, L. Forni and G. Zuretti (Milan, Italy) 143

Calendar of Forthcoming Events 155

Book Review 163

News Brief

Government Research in the US: Is it Useful? N2

The Story of Two Catalytic Processes N4

Catalytic Society of Japan Awards N4

Commercial Ammoximation Process N5

Direct Conversion of Ethylene to Acetic Acid N6

ZSM-48 and TIO_2/ZSM-48 zeolites synthesized from an all-solid feed material N6

Heterogeneous and Homogeneous Catalysis N7

Letter

Pronounced catalytic activity of $Fe_{0.08}Cs_{2.5}H_{1.26}PVMo_{11}O_{40}$ for direct oxidation of propane into acrylic acid [A3120]
N. Mizuno (Tokyo, Japan), M. Tateishi and M. Iwamoto (Sapporo, Japan) L165

Articles

Asymmetric synthesis by metal BINAP catalysts – a Review [A3114]
S. Akutagawa (Tokyo, Japan) 171

Ketones from monocarboxylic acids: Catalytic ketonization over oxide systems [A3099]
M. Gliński, J. Kijeński and A. Jakubowski (Warsaw, Poland) 209

Investigation of a nickel oxide system for heterogeneous oxidation of organic compounds [A3030]
St.G. Christoskova, N. Danova, M. Georgieva, O.K. Argirov (Plovdiv, Bulgaria) and D. Mehandzhiev (Sofia, Bulgaria) 219

Oxidation of propylamine over titanium silicate molecular sieves [A3101]
J. Sudhakar Reddy and A. Sayari (Ste-Foy, Qc, Canada) 231

Reactions involved in the alkylation of isobutane with 2-butene and with propene on a USHY zeolite [A3096]
F. Cardona, N.S. Gnep, M. Guisnet (Poitiers, France), G. Szabo
P. Nascimento (Harfleur, France) 243

Characterization and deactivation of sulfided red mud used as hydrogenation catalyst [A3100]
J. Alvarez, R. Rosal, H. Sastre and F.V. Díez (Oviedo, Spain) 259

Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite [A3097]
E.J. Creyghton, M.H.W. Burgers, J.C. Jansen and H. Van Bekkum (Delft, Netherlands) 275
